Colonel,

I will not be able to attend the meeting-lunch with you and Lt. Henderson Thursday. I do not believe the meeting will be meaningful or profitable.

I have been the PSB Commander for two years. Most of that time I experienced vehement opposition, both inside the bureau and outside at all supervisory and management levels, to practically everything I proposed, everything I did or attempted to do – from those who do not have the training, knowledge, breadth and depth of experience that I have.

To quell some of the hatefulness and whining, I am preparing a special report requesting that an audit of the Professional Standards Bureau and its processes, etc. be conducted by an *outside agency* (Ohio Attorney General, PERF, or similar entity). Hopefully, the recommendations made as a result of the audit will be heeded.

Until that time, I will no longer make recommendations for changes or review any investigations, except those completed by PSB investigators. You will have the request for the audit in the morning.

Respectfully,

Lt. Hill
